

# Aakar Academy of Art

We Are For Art

## **Diploma in Wood Design & Production:**

This program focuses on the training in design to develop craft products like furniture, interior products & fittings, illumination devices etc for personal, social and professional living spaces. The program exposes the students to multi-materials which include wood, metal and stone etc.

## **Structure:**

The programme is designed to introduce the student to the richness of the art forms available in wood. They are encouraged to design and produce products rich in variety and texture. Furniture, doors, paneling, objects of every day use and of art are produced at the Institute using the ancient arts of various cultures.
